## IN SOUTH PARIS.

Statements of South Paris Citizens Are Always of Interest to Our Readers.

To many readers the streets of South Paris are almost as familiar as those of our town, and we are naturally interested to read of happenings there. The following report from a well-known and respected resident will be helpful to numbers of men and women here in Norway.

"I suffered from pains in the small of my back and if I stooped, it was hard for me to straighten," says Irving Merrill, stationary engineer, of Alpine St., South Paris, Me. I noticed that the kidney secretions were unnatural and irregular in passage. I got Doan's Kidney Pills and after I had used three boxes, the trouble had gone. I am glad to confirm my previous public endorsement of this remedy."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Merrill had. Foster-Milburn Co., Props., Buffalo, N. Y. 44-45

## ALBANY.

Rev. George Bird.

The people in this town were very much saddened on hearing of the death of Rev. George Bird, spent part of the summer for two summers about thirty-seven years ago and boarded with Dexter Cummings' family. He was a smart preacher and a great worker and was the man that did the most work towards taking down the old church and moving it over to the corner where it now is. He has preached in the city of Chicago for the last thirty-five years or more. His wife passed away a kind word and a pleasant smile for everybody, rich or poor.

They had a big turn-out at the last Circle, on the evening of Oct. 22d. There will be another Circle in two weeks. Picking apples has been the great business of the day.

Harry McNally, Archie Ross and Guy Johnson are cutting up pulp wood down near Parker Flint's.

A. Cummings has bought a nice cow of D. Ernest Paine has a crew cutting pulp wood over on the Frank Bean place.

E. Allen, Sherman Allen and Roy Andrews are at work over to West Paris, packing apples for R. L. Cummings.

There is not much profit in apples when your barrel costs 45 cents, picking per barrel 25 cents, sorting, packing and heading up 17 cents, making a total of \$1.10, then selling for \$1.00, with a loss of 10 cents. But this is an off year. Apples have never been so cheap for more than twenty-five years. But take it for the last ten years and average the price up for apples have brought fair money.

Mrs. Maria Grover has been visiting friends at the corner.

Guy Cummings went to Boston to see his brother Alvin who works on the steamers. He shipped a carload of No. 1 Baldwins across the water last week.

Frank and Herbert Bean, Arthur Andrews and Guy Johnson went on a shopping trip to the lakes. They brought home one good deer.

Mrs. Lizzie Cummings is visiting her son Leslie. From there she will go to New Hampshire to visit her two sisters, Mrs. Melvin and Mrs. Wentworth.

There will be another dance at Grange Hall, Oct. 31st, and an oyster supper.

Raymond Cummings has traded off his team for a automobile. Sunday he took a party and went around the mountains.

Arthur Anderson has his stable most for him. W. E. Cummings has been at work.

D. A. Cummings plans to go to New Hampshire, Wednesday, Oct. 28th, to buy some eggs and barrels to sell and sell some apples and new cider.

## Neuralgia

There is no need to suffer the annoying, excruciating pain of neuralgia; Sloan's Liniment laid on gently will soothe the aching head like magic. Don't delay. Try it at once.

Hear What Others Say "I have been a sufferer with Neuralgia for several years and have tried different liniments, but Sloan's Liniment is the best I have tried for Neuralgia; on each case I have tried it successfully; it has never failed."—F. H. Williams, Augusta, Ark.

Mrs. Ruth C. Clapp, Independence, Mo., writes: "A friend of mine told me about your Liniment. We have been using it for 12 years and it has done nothing for us. We use it on everything that aches—rheumatism, sore throat, headaches and on everything else. We can't get along without it. We think it is the best Liniment made."

## ASTHMA AND HAY FEVER A GUARANTEED TREATMENT

"I have arranged with Chas. H. Howard Co. so that every sufferer from Asthma, Hay Fever, Bronchial Asthma, South Paris, Me., can try my treatment entirely at my own risk." Dr. Rudolph Schiffmann announces. He says: "Buy a 50-cent package of my Asthma and Hay Fever Cigarettes, try it, and if it does not afford you immediate relief, or if you do not find it, the best remedy you have ever used, take it back to Chas. H. Howard Co., and they will return your money, cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases, which had been considered incurable, and which had been given up in despair, I know what it will do. I am so sure that it will do the same with others that I am not afraid to guarantee it will relieve instantaneously. The druggists handling Asthma and Hay Fever Cigarettes will be my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try my Swamp Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new man. I passed a gravel stone as large as a big red bean and several small ones. I have not had the least feeling of pain since taking my Swamp Root and I feel it my duty to recommend this great medicine to all suffering humanity. Gratefully yours,  
MRS. JOSEPH CONSTANCE,

## Value of Hyomei

It's the Safe Catarrh Remedy. Nothing Better for Head Colds or Bronchitis.

Do not endanger your health by taking strong drugs into the stomach in the hope of curing catarrh, coughs, asthma and head colds. At the best they usually do little more than upset the digestive organs.

Use Hyomei, which is nature's own remedy for all such diseases. It is a combination of healing oils, gums and balsams, which, when breathed through the Hyomei inhaler, saturates the air you breathe with its curative and health-giving medication—it clears stuffed up head like magic. Hyomei quickly goes to all the sore and inflamed tissues lining the nose, throat and bronchial tubes. Its antiseptic healing begins at once—dull headaches, distressing choking, constant snuffing, and unclean discharges of the nose surely cease.

Hyomei is not only the most pleasant, but the most natural treatment, and very inexpensive. All druggists have it. Be sure to get the complete outfit that contains inhaler and bottle of liquid. Noyes Drug Store will sell you Hyomei on the "No-cure-no-pay" plan. Surely try it today—you have nothing to lose on this generous offer.

Find the Lady Who Uses the World's Greatest Corn-Cure, "GETS-IT"

corn-cure, based on an entirely new principle. It is a new, different formula, never successfully imitated. It makes corns shrivel and then vanish. Two drops do the work. You don't bundle up your toe any more with sticky tape and plaster that press down on the poor corn—no more flesh-eating salves that don't "stay put," no more hacking at corns with knives or razors, no more bleeding or danger of blood poison. No more limping around for days with sore corns, no more corn pains. "GETS-IT" is now the biggest-selling corn cure in the world. Use it on any hard or soft corn, wart, callus or bunion. Tonight's the night. "GETS-IT" is sold by druggists everywhere, 5c cents a bottle or sent direct by E. Lawrence & Co., Chicago.

## BETHEL.

Charles C. Farwell.

Charles Calvin Farwell passed away at his home, 23 Railroad street, Bethel, last Thursday noon, of pneumonia.

Mr. Farwell was born in Bethel, Aug. 12, 1847, and was the son of the late John Estes and Betsy Howe Farwell.

He was married to Abbie Wiley Farwell, May 7th, 1871. Two children, Fred L. and May 7th, 1871. Two children, Fred L. of Somerville, Mass., and H. Morton of Bethel were born, which survive him, also a sister, Mrs. Rowena M. Swan, of Norway.

He has always made his home in Bethel, with the exception of two years that he worked in Springfield, Mass. For over thirty years he was employed as a section hand on the railroad and ten years as foreman. For the past ten years he has been unable to do but little work and has been a great sufferer during that time.

Last Saturday he complained of a severe pain in his chest and Sunday the doctor was summoned who pronounced it pneumonia. Some hopes were felt that he might throw it off but his heart was weak and Wednesday night he began to fail. He became unconscious Thursday at ten o'clock. His wife and children were at the bedside when the end peacefully came.

He was a member of Mt. Abram Lodge of Odd Fellows and Sunset Rebekah Lodge.

The funeral took place at his late home, Saturday afternoon at 1.30. The Rev. J. H. Little officiated. The Odd Fellows had charge of the arrangements and conducted their services at the grave.

The bearers were brothers, Irving French, Albert Frost, George Harding and Rufus Skillings. The interment was in the family lot at Riverside.

There were many floral pieces from relatives and friends from Somerville, Mass., Melrose, Mass., Roxbury, Mass., Norway and Bethel.

## Fresh Tobacco Never Bites; Dry, Cut-up Tobacco Does

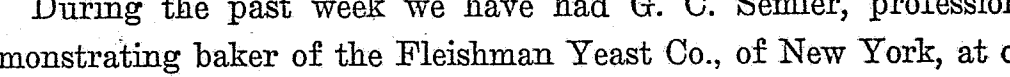

Only when the natural moisture *dries out* of tobacco can a "bite" get into it. In the Sickle plug, *all* the moisture, flavor and fragrance are *pressed in and kept in* by the natural leaf wrapper. Every pipeful you whittle off the plug is *fresh*—so you always get a slow-burning, cool, sweet, *satisfying* smoke.

If you want your tobacco already cut up for you, in packages, you have to be content with *dry* tobacco, that burns fast and hot, and *bites your tongue*.

That's why *experienced* smokers cut up their own tobacco, from the Sickle plug. They get *more* tobacco, because they don't pay for a package—and *better* tobacco, because it's always *fresh*.

## WEST FRYEBURG.

### Water Supply Secured.

Henry Andrews has been laying the pipe to conduct water from the spring lately purchased in the Hardy pasture to the spring in former use on the Andrews land which failed in extremely dry seasons. The Hardy spring has never been known to fail and the union of the two systems will insure a steady supply of pure water for several families in the neighborhood.

There is a sad scarcity of water in many sections and while we all enjoy the delightful weather of the season we yet hope for the coming of a good rain.

J. O. Ring of Greenwood was through this section with his threshing machine last week. A very small amount of grain was raised in this neighborhood this year. Lendall Yates had 36, J. B. Hathaway, 26, and Ralph Bacon 42 bushels.

Almost every town has its chicken thieves, common thieves and burglars, but we have here or near here what would have to be known as a barn window thief. Ralph Bacon, on going out to his barn one morning last week, found that someone had walked off with one of his barn cellar windows. Two lights of glass were missing from the window when taken and the strange part of it is, what appeared to be the same identical window with two new lights of glass put in appeared in a Woodstock building shortly after. It probably just happened that way in this case, but we would advise every one to lock up their barn windows as securely as possible hereafter.

## GET RID OF HUMORS AND AVOID DISEASE

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions. They affect all the organs and functions, membranes and tissues, and are directly responsible for the readiness with which some people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. It is distinguished for its thoroughness in purifying the blood, which it enriches and invigorates. No other medicine acts like it, for no other medicine is like it. Get Hood's Sarsaparilla today. Insist on having Hood's.

Settlers of Greenwood

By PROF. A. E. VERRILL of Yale University.  
When a house was raised, it was sometimes named, and as in launching a ship, a bottle of rum or hard cider was sometimes spilled, and in some instances a few verses were recited.

Cooperation, among the farmers, was very general, whenever any hard job was on hand. Sometimes when a poor man's house was burned, all his neighbors would contribute either labor or materials or both, and soon rebuild it for him, without pay.

My father had four sons and four daughters. The oldest son was Byron D. Verrill, born 1835, at my grandfather Verrill's farm on Patch Mountain. He was named for P. D. Byron DeCreny, one of my father's most intimate friends. He was Principal of the Norway Liberal Institute, 1856 to 1859, and had previously taught school in North Norway. He later studied law and became an eminent lawyer in Portland, where he died December, 1898. He married Harriet A. Robinson of Wisconsin. They had two sons and two daughters. His son, Harry M., graduated at Yale, 1889, and is now practicing law in Portland, where he resides, but he also has a fine summer place on the shore of Sebago Lake. He married Louise Brown of Portland, and they have four children living. Alice, married Sterling Dow of Portland and has three children. Marion married Ernest Noble of Portland and has one child.

The third son was George W. Jr. He was born 1841 and died 1908. He served through the Civil War, in Co. C, 17th Maine Regiment, and was promoted through several grades to captain. He was seriously wounded at Gettysburg, by a rifle ball, which he carried until his death. After the war he resumed the practice of law in Portland.

He was joint author of the books, "Maine in the Civil War," and "The Seventeenth Maine Regiment at Gettysburg," and was active at the reunions of the war veterans, at Gettysburg and elsewhere. He made the published map of Gettysburg showing the positions of the armies during the battle. He married Augusta Beckett, daughter, S. B. Beckett of Portland. They had one son, George B., now living in Portland, and two daughters. Grace died unmarried. Cora married Louis A. Round of Bath. They are now living in New London, Conn. and have several children. George B. has several children.

Lucy Allen Verrill, (usually called Nellie V.) born in 1841, in Greenwood, married first, Harry Mighels, son of Dr. Jesse W. Mighels, early of Portland, but later of Cincinnati, where he practiced medicine many years, and late in life resided in Norway. He was the pioneer conchologist of Maine. His collection of shells was burned in the Portland fire. He graduated at Dartmouth College. He pronounced his name as if "Miles," but it was changed in the west to Mighels.

Harry Mighels lived in Carson City, Nevada, and was proprietor and editor of The Carson City Appeal, for many years. He had much literary ability and wrote many articles in periodicals, and a book called "Sage Brush Leaves." He was in the Civil War as Colonel, on Governor's staff, and received a wound which finally led to his death. They had three sons and a daughter.

One son, Phillip V., born 1869, studied law and was admitted to the bar in Nevada, but devoted himself later to journalism and authorship. He resided four years in London, later in New York, and in Nevada. He accidentally shot himself fatally, in 1911, while hunting quail in Nevada. He was the author of numerous successful books. Among them:—When a Witch is Young, Chatwit, The Man-talk Bird, Nella, The Heart of the Army, The Crystal Sceptre, The Inevitable, The Ultimate Passion, Bruvver Jim's Baby, The Furnace of Gold, etc.; also in verse, Out of a Silver Flute. He also wrote many magazine articles. He married twice, but had no children.

Her other sons, Roy and Harry, reside in Carson City. Her daughter Bessie married Irwin Lewis and resides in Carson City. Her second husband is Samuel P. Davis. He is editor of the Carson Appeal and has been engaged in journalism and politics. They have two daughters, Lucy S. Davis and Ethel, both are married and reside in Carson City. She resided long in Carson City, but for many years has lived on a ranch, a few miles away.

Emma Lydia Verrill married Jonathan Doane, of Carson City. He has been State controller and has had other official positions. They have three children, all married. Amy married George E. Verrill of New Haven, his second wife. Hattie L. Verrill married George McLaughlin. They have resided in Carson City and Philadelphia, and now live in San Francisco. He has long been employed as machinist in the U. S. mints. They have three sons and two daughters. The eldest son, George, is a dentist in San Francisco. Another son, Maurice, (or Morris) has been distinguished as a lawn tennis champion, having won many prizes and the championship of California, of the United States and of England, and has recently competed for the International Championship.

Edgar Freeland was born 1850 in Greenwood. He married Sarah Russell, of Portland, and lives now in California. He has been engaged in railroad business, most of his life. He had one daughter, Florence, who is married and has several children.

As for myself, I was born in 1839, married 1865, Flora Louise Smith, daughter of Elliot Smith of Norway, entered Harvard, May, 1859, graduated S. B. 1862, studying specially zoology and geology, with Prof. Louis Agassiz, and became his assistant, 1860 to 1864. In 1864 I was appointed Professor of Zoology at Yale, and also Curator of the Yale Museum, taught 43 years, a very uncommon length of time, with no "substantial year," and no leave of absence for more than two or three weeks during the whole time, even on account of illness, retired in 1907, on account of the age-limit (68 years), and became Professor Emeritus.

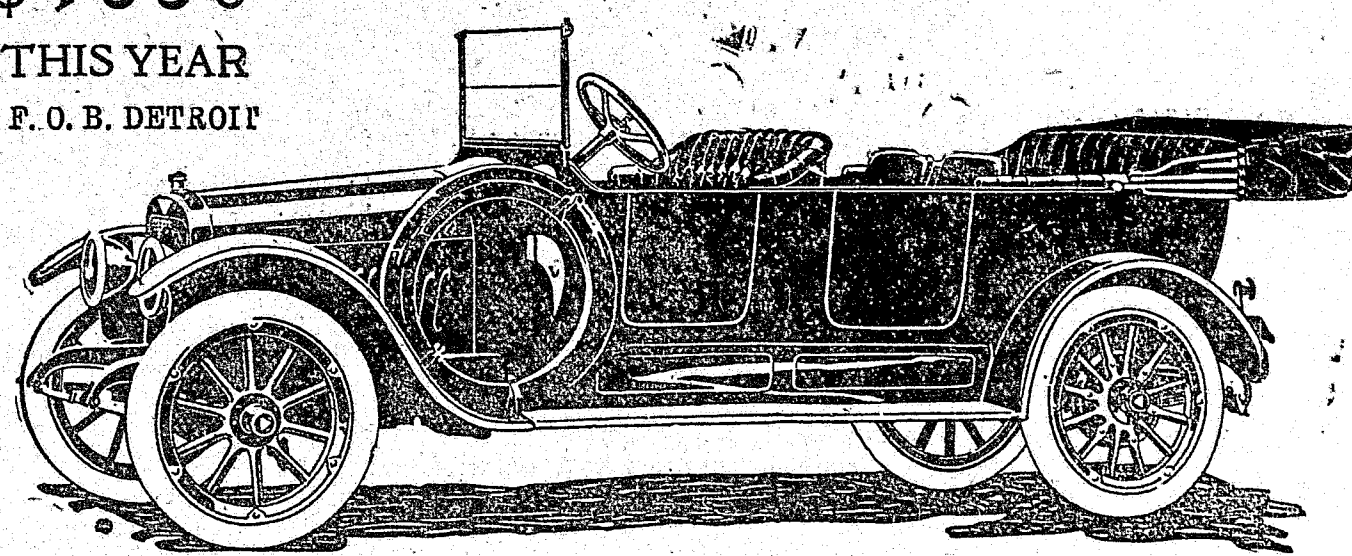

During my long period of teaching zoology and geology, I had with me, as students, many young men who have since become eminent in science or in medicine. Among them I recall Prof. S. I. Smith, of Yale, a son of Elliot Smith of Norway; Prof. E. B. Wilson, of Columbia; Prof. E. A. Andrews, of Johns Hopkins; Prof. Edw. Linton, of Washington and Jefferson College; Mr. Richard Rathbun, Director of the National Museum; Dr. W. G. Van Name, Curator of the New York State Museum; Prof. Wesley B. Coe, of Yale; Prof. S. H.

**HUDSON Six-40 1915 Model**

**\$1550**

THIS YEAR

F. O. B. DETROIT

**48 Experts—48 Months**

Four years ago, Howard E. Coffin, the great HUDSON designer, started to build this ideal Six.

The whole HUDSON corps of 47 engineers worked with him. For 48 months these 48 experts have given their best to this car.

This is their finished product. Since last year's model these men have added 31 new features. Now every detail shows their conception of the model modern car.

**No Waste**

Their chief aim has been to eliminate excesses—to wipe out over-tax.

Here is modest size, yet there's ample room for seven.

Here is modest power—47 horsepower; yet no man has use for more.

Here is one of the sturdiest cars ever built, yet it weighs 2890 pounds. Former cars of this capacity weighed 4000 pounds or more.

And here is a new-type motor which saves about 30 per cent. in fuel.

Tire cost, upkeep and operative cost have been reduced

to the farthest limit for a car of this capacity.

**Means New Zest**

All these new things mean new zest in motoring. And there are many others.

Streamline body.  
Disappearing seats.  
Invisible hinges.  
Hand-butted leather.  
Dash gasoline tank.  
Extra tires carried ahead of front door.  
"One-man" top.  
Quick-adjusting curtains.  
Wires in metal conduits.  
Locked ignition and lights.  
Automatic spark advance.  
New-method carburetor.  
Dimming searchlights.  
Simplified self-starter.

There are new beauties, new comforts, new conveniences. There are scores of modern attractions. Every part and detail will interest you because of its apparent perfection.

**A New-Day Price**

This new HUDSON also marks the end of over-price. No quality car has ever before sold anywhere near so low.

When a car like this sells for \$1550 it means that prices must be revised.

All these things invite you to come and see this car. Compare it with cars of two years ago. Compare it with cars of today.

We promise you an interesting hour when you come to inspect this car.

Clark, of Williams College; Prof. Wm. North Rice, of Wesleyan, and many others.

I am still actively engaged in original scientific researches on deep-sea animal life, and publishing reports upon this and allied subjects. My scientific career, during the past sixty years, has been recounted in sufficient detail, in the Advertiser of July 24, by Mr. Fernald, whose facts were taken from an article in "The Genealogical and Family History of Connecticut," and are reliable.

I was named for Addison Emery, a much esteemed young man, who was killed a short time before my birth, while engaged with my father in building a house. He belonged to the Emery family of Portland and Paris.
